CES 2112 Digital Systems Lab
Open Ended Experiment Guidelines

Select any application of **Digital System Design and/or Computer Organization** and **choose a problem statement that can be mapped to the prescribed curriculum.**

The application should consist of **4 to 5 design components**, so that each student can contribute individually towards a component

Important Dates

Abstract submission	7 /9/2026
Final Report Submission	21/10/2026

Guidelines:

1. The team should be of a minimum of 4 or a maximum of 5 members within the lab batch.
2. Abstract should contain the following
    - Title
    - List of team members with section, registration number, and roll number.
    - Problem Statement

3. The Final Report Should Contain the following.
    - **Title**
    - **Team Members** - List of team members with section, registration number, and roll number.
    - **Problem Statement**
    - **Objective**
    - **Design with block diagram**
    - **Verilog code**
    - **Individual Contribution** – The contribution of each member of the team, should be documented in the report.

4. An Excel sheet will be circulated initially to collect the team names and the title.
